MA THESIS/ PROJECT PROPOSAL

1. Preliminary title of the thesis/ project:

2. Preliminary research question of the thesis or purpose of the project:
   Define your research question/ purpose and explain its relevance based on previous research findings and (if relevant) your own experience. This section should contain a brief literature review.

3. Methodology:
   Describe how you are going to find an answer to your research question/ achieve your purpose: what/ who you are going to study/ what you are going to create; how you are going to collect and analyse your data; how you are going to demonstrate effectiveness/ usefulness of your study/ materials you have created.

4. Work schedule:
   List the stages in your work and when you expect to complete them.

5. References:
   List the most important sources, particularly those you have mentioned in the proposal.

Date of submission:
